KNIGHT UNDERWRITERS TL-30 CLASS F

Mercantile & Broadform Bank Rating "G"

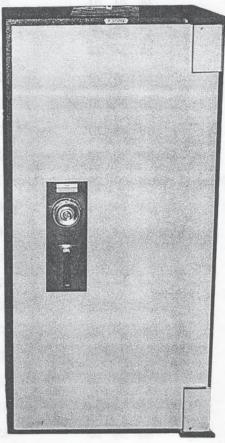

The Knight TL-30 Underwriters approved money safe offers the finest American manufactured safes which qualify for Mercantile & Broadform Insurance Class "F" with a bank rating of "G". Among the many innovations offered as standard on these safes is Knight's 3-Way Bolt system with live locking bolts on three sides of the door to provide protection against explosives and hydraulic "spreading." The new "stepped" flush front door is another feature. A wide range of custom sizes and options are also available. **STD sizes are on reverse side.**

Supermarket Special

CONSTRUCTION CHARACTERISTICS

- 1 inch body and 1½ inch doors of carbon steel with 50,000 lbs. tensil strength. All joints electrically welded.
- Group II Underwriters approved lock and separate relocking device.
- Spyproof keylocking dial for dual custody.
- Bolt detent to eliminate damage to locking bolts.
- The country's finest drill resistant hard plate protecting the lock and EACH locking bolt.
- All doors removeable and adjustable when open.
- Five or more one inch chrome locking bolts on safes 22" H or larger.
- · Continuous locking bar on hinge side.

5024-20

- 11/2 inch laminated door with full face hard plate.
- ½ inch overlap of safe door to resist hydraulic spreading.
- Hard plate protecting lock is Xray proof, radiographic proof, drill resistant and punch resistant.
- · 3-way bolt system on all models 22" or larger.
- Bottom of all safes treated with Zinc Chromate to prevent rust.
- All safes painted with Polane® Polyurethane Enamel to give them superior appearance and durability.
- Wide range of optional interiors, timelocks, time delays, and claddings available.
- All safes carry full one year warranty.
