Hopper:

A large 4½" W x 7" D x 12" Lg. opening is provided. The hopper rides on ball bearing suspension slides both for extension and for rotation to the dump position. Both combination and keylocks are used to release the hopper.

Relock:

All units use a U.L. listed mechanical relock which provides protection against a lock punching attack.

Bags:

Deposit bags are available in sets of 10 bags, imprinted and sequentially numbered.
