				High	Wide	Deep			
2E-1	12"	13 1/2"	12 1/2"	14 1/2"	17 1/2"	18 1/2"	22 1/2"	9"	400

THE ONLY Burglary-Resistive Chest made that bears the Underwriters' Laboratories, Inc., label for one-hour fire exposure, including 50-foot drop or impact test and explosion test with similar label awarded by the Safe Manufacturers National Association, in addition to the Underwriters' relocking device label. Also qualifies for "double-burglar proof" classification.

Chest takes "E" mercantile burglary insurance classification with 10% discount in insurance rates for relocking device label. See note, page 10. This unit saves approximately 70% in mercantile burglary insurance rate.

Formerly, both the safe and the chest were necessary to obtain the dual protection against both fire and burglary now offered by this chest.

Finished in Mosler wrinkle gray. Special colors and finishes slightly higher.

No. 1418-2E

No. 1418-OE

Safe is the same as above. The space above chest is 6 1/2". The space to the right of the chest is 2 1/2" wide x 10" high x 20 1/2" deep. Shelf across the safe on top of the chest. Approximate net weight 400 lbs.

A moderate design safe, which has been tested and approved by Underwriters' Laboratories, Inc., for one-hour fire exposure, including the 50-foot drop or impact test and the explosion test. A one-hour fire exposure label also has been awarded by the Safe Manufacturers National Association.

The chest bears the Underwriters' Laboratories, Inc., relocking device label and the Safe Manufacturers National Association group four label.

Safe has four composition rivet wheels concealed beneath 7" high steel base, as illustrated, to protect the floor area which the safe may be moved.

Finished in Mosler smooth gray. Special colors or finishes slightly higher.
