

STAINLESS STEEL OPTIONS

The Schwab stainless steel insulated vault door reflects taste and integrity. It has ideal application where confidence in business practices is an absolute necessity, as in savings and loan associations, credit unions, or wherever the record vault entrance is in open view of customers.

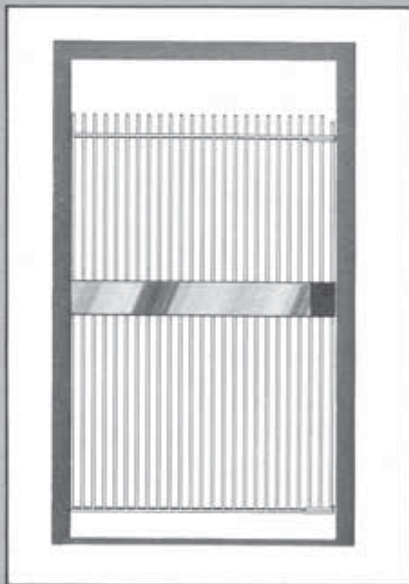

The brushed stainless finish will be as beautiful after decades of heavy use as it is the day of installation. The door frame, jamb area, and rear architrave are finished

in charcoal gray to complement the wide expanse of stainless. An additional 8" architrave (not pictured) gives the appearance of added mass and security.

If the door is normally left open during business hours, its beauty is enhanced by the addition of a stainless steel back plate. All stainless steel options are available on 2, 4, or 6 hr. insulated vault doors in both the 32" and 40" wide models.

Description	Model No.	
	32" doors	40" doors
Stainless steel front plate with 4" architrave	SFP32	SFP40
Additional 8" architrave	SA32	SA40
Stainless steel backplate	SBP32	SBP40

SCHWAB DAY GATES

Designed specifically for use with Schwab Vault Doors, day gates restrict unauthorized entrance during hours the vault door is open.

Deluxe Aluminum Rod Gate has stain anodized finished. Gate is made of 1/2" x 65" rods spaced 1 5/8" apart. Frame is 3/8" thick x 1 1/4" wide. Gate fastens to back sill bar of vault entrance. Piano-type hinge allows gate to swing easily into vault. Equipped with heavy duty key lock.

Direction of day gate swing is determined by viewing day gate from inside the vault. Right swing hinges on right; left swing is the reverse.

Day Gate Model No.	Description	Approx. Shpg. Wt.
DGA 32	32" Aluminum Rod	92 lbs.
DGA 40	40" Aluminum Rod	100 lbs.

STANDARD FINISHES

Choice of gray, charcoal gray, olive green, or tan textured finish. Custom colors are available—consult factory.

PRODUCT AVAILABILITY

Generally, except during peak periods, Schwab vault doors are shipped within six weeks after receipt of customer order. For custom orders, an additional two weeks may be required.

SHIPPING METHODS

To protect the quality finish and to assure good condition upon arrival, Schwab Vault Doors are factory packaged in a rugged 1/2" plywood and hardwood container. Surfaces to be exposed are further protected by a plastic "air cushion" material. All shipments are f.o.b. factory freight collect unless otherwise specified.

ORDER CHECK LIST

Door Model No. _____

Wall Thickness _____
(7"-18"—must be specified)

Color _____
(gray, charcoal gray, olive green, tan)

Door Swing _____
(right or left*)

Day Gate Model No. _____

Gate Swing _____
(right or left*)

Authorized by _____

*Swing is determined by facing door from *outside* vault. Hinges on right side denote right swing; hinges on left side denote left swing. Swing of day gate is determined in the same manner, facing the gate from *inside* the vault.
