

## The Fire-File® Combine!

### Fire-Protection for Letter and Legal Size Records

The Fire-File combines protection of a safe with the convenient drawer operation of the finest filing cabinet ever built.

This Fire-File Shaw-Walker has been making for 44 years is today's first choice for housing important correspondence, orders, contracts and other records needed in the everyday conduct of your business.

In addition to certified time-rated fire protection, you also get . . .

- Theft security. Fire-File has Signal Plunger Lock controlling all drawers, page 171. Can be equipped with Combination Lock, page 173
- Easy rolling drawers on Free-Coasting slides
- Extra file space. Every inch usable, Page 171
- Simplest, fastest follower operation or time-saving Wobble Block. Pictured on page 171
- One-finger latch release using either hand
- Finest finish and hardware

Pictured on the opposite page are a few of the more important ways in which Fire-Files protect records and save work-time.
